Dear DRH Design Team,

When we started looking at the possibilities of expanding our facilities, we knew what we wanted but we had no idea of how to get there. We were so blessed to be introduced to the DRH Design Group.

DRH helped us develop an overall plan for our 25 acre campus. They helped us to understand what we could do and what we could not do.

As many of you are aware, dealing with Fauquier County can be a very complicated and drawn out process. We had heard many positive things about DRH and since they were a local engineering firm we decided to go with them. We were not disappointed. The DRH team was very professional in how they met and addressed feedback that was given to them by the county. They were very knowledgeable in all areas and very creative with their solutions. DRH's team did a masterful job in presenting Fresta Valley's expansion plan to our planning commission and board of supervisors. As a result of all their hard work, we were given approval for our plans.

Currently, we are working with DRH as they develop our final site plan.

We are so thankful to have such a wonderful engineering firm help us achieve our short and long term plans for our school. Thank you to all the team at DRH.

God bless,

Kevin R. Worsham
Administrator

"All your children shall be taught of the Lord; and great shall be the peace of your children." Isaiah 54:13
