PROJECT PROFILE

Project Features:

Mixed use business park with one 9,000 s.f., 1-story retail building and three 12,000 s.f., 2-story office buildings. Existing grades required innovative grading of the site which allowed for on-grade entrances into both stories of the office buildings. Retaining walls were also required.

Services Provided:

Architectural Design
Structural Engineering
Landscape Design
Site Lighting Design
Civil/Site Engineering
Land surveys
Stormwater Management
Construction Stakeout
Construction Phase Services
